Keran Lafleur
Element Materials Technology – Lafayette
2417 West Pinhook Road
Lafayette, LA 70508

Laboratory No: 9035
Effective Date: 12/31/2024

Dear Keran Lafleur:

SUBJECT: Laboratory Certification

The information prepared and submitted to this office by your laboratory has been reviewed. Based on the Louisiana Department of Health certification of Element Materials Technology – Lafayette, the Michigan Department of Environment, Great Lakes, and Energy (EGLE) will accept the results generated by your facility for compliance monitoring under the Michigan Safe Drinking Water Act, 1976 PA 399, as amended. The results that will be accepted are for the following contaminants and certification levels:

Inorganic Chemistry
Certified Parameters:

Copper (via U.S. EPA Method 200.7)
Copper and Lead (via U.S. EPA Method 200.8)

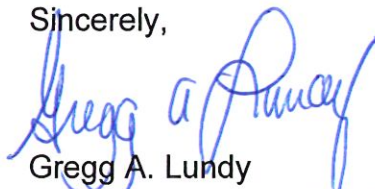

Our acceptance of results and certification of Element Materials Technology – Lafayette is contingent on your continued certification by the Louisiana Department of Health. In addition, your laboratory's certification in Michigan is contingent on your laboratory submitting to this office at least one full set of U.S. EPA proficiency test sample results per year throughout the certification period and the results of any on-site inspections conducted by the Louisiana Department of Health or their agents.

Our certification of your facility for lead and copper will expire on December 31, 2025. Your certification fees are paid until January 25, 2028. Please forward your certificates and on-site inspection report with the laboratory's corrective actions once you renew any certification in your home state. Provided you maintain fully certified status through the Louisiana Department of Health you will be reissued reciprocal certification for the State of Michigan without charge until the expiration date of your home state certification exceeds the "Fees Paid to Date" on your Michigan certification. Seven months in advance of your "Fees Paid to Date" you will be sent a certification renewal package and assessed the fee for the upcoming three-year period. Certification fees are non-refundable.
